IRON-ON LOGOS

For Campers With A Box:

SUPPLIES NEEDED:

- ☐ Tape Ministry Iron-On logos front and back (two sizes)
- ☐ Iron-On transfer paper
- ☐ T-shirt or fabric item to apply logo on

STEPS:

1. Download the "Tape Ministry" Iron-on PDF from the Resources section.
2. Print logo onto your iron-on transfer paper. (Follow the printing instructions from your transfer paper as you may need to mirror the image before printing.)
3. Trim excess paper from your logo and follow the instructions below to apply the logo to your t-shirt.

HOW TO APPLY IRON-ON LOGOS

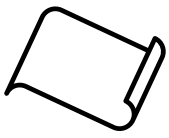

1. Preheat your iron.
Set the temperature between cotton and polyester or one setting below your highest heat.

2. Iron your t-shirt.
This will preheat the fabric and remove excess moisture before applying the design.

3. Place your design.
Position the Tape Ministry design with the paper side up where you would like it to go.

4. Place parchment paper over your design.
Household parchment paper can be used for pressing.

5. Iron over the design.
Do NOT use steam.
Press firmly on the iron to set design.
Use medium pressure and start circular motions across design.
Iron for 10- 15 seconds.
Let completely cool.

6. Remove parchment.
Carefully peel the paper backing off of the design.
If the design is not applied to the t-shirt, DO NOT finish peeling paper backing. Place paper backing and parchment paper back over design. Repeat step 5.

Important: Wait 24 hours after applying iron-on decal before washing your t-shirt.
