

ALASKAN EARTHQUAKE DIORAMA

Materials needed:

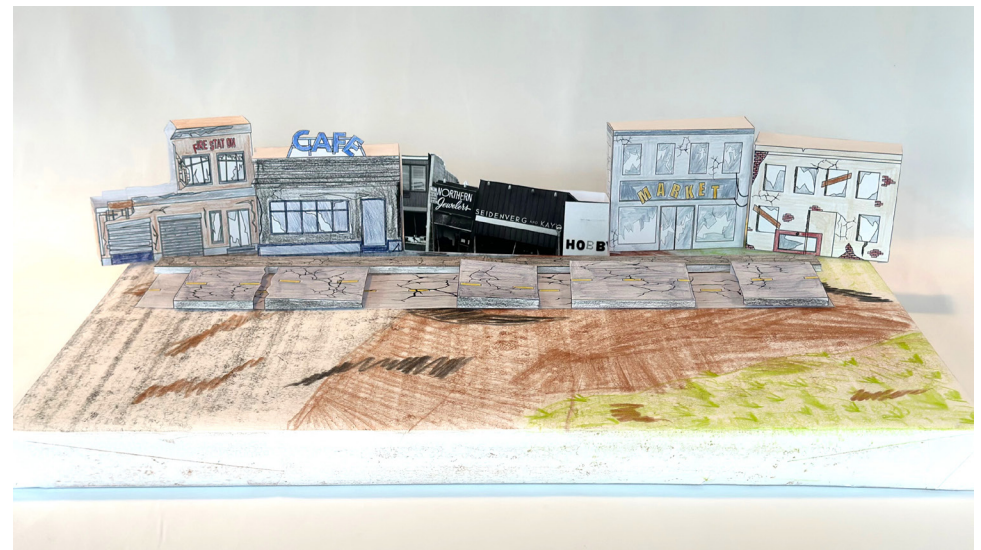

- A box or piece of poster board to use for a base or background for your diorama.
- Cardstock or Printer Paper
- Glue
- Scissors
- Crayons or Colored Pencils

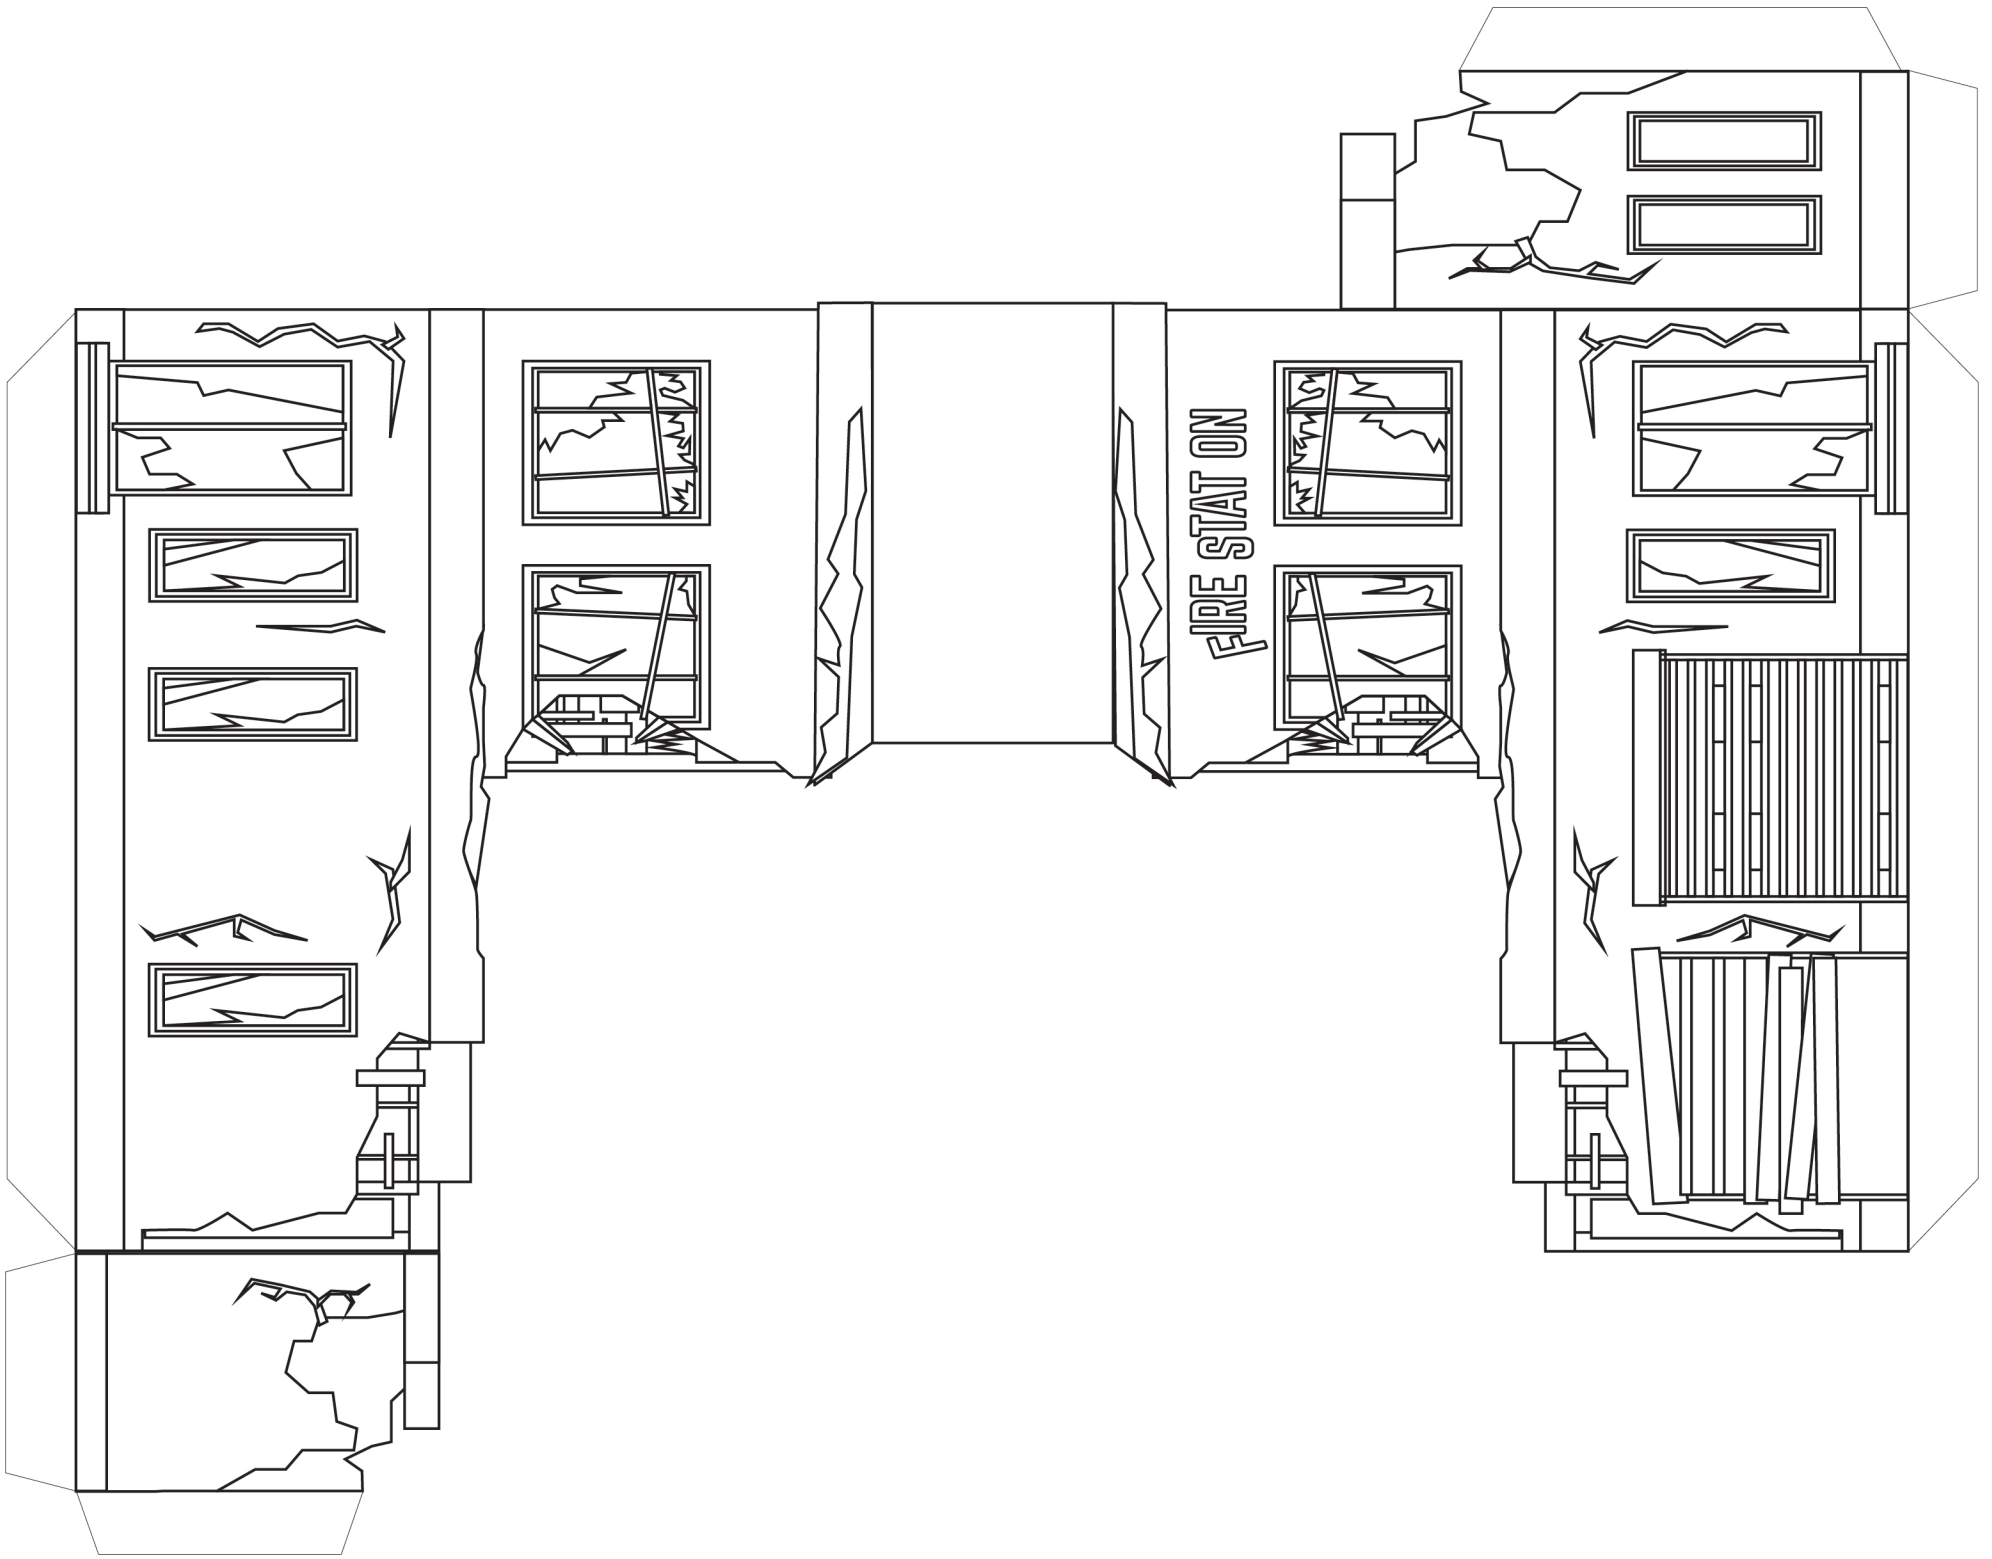

Instructions:

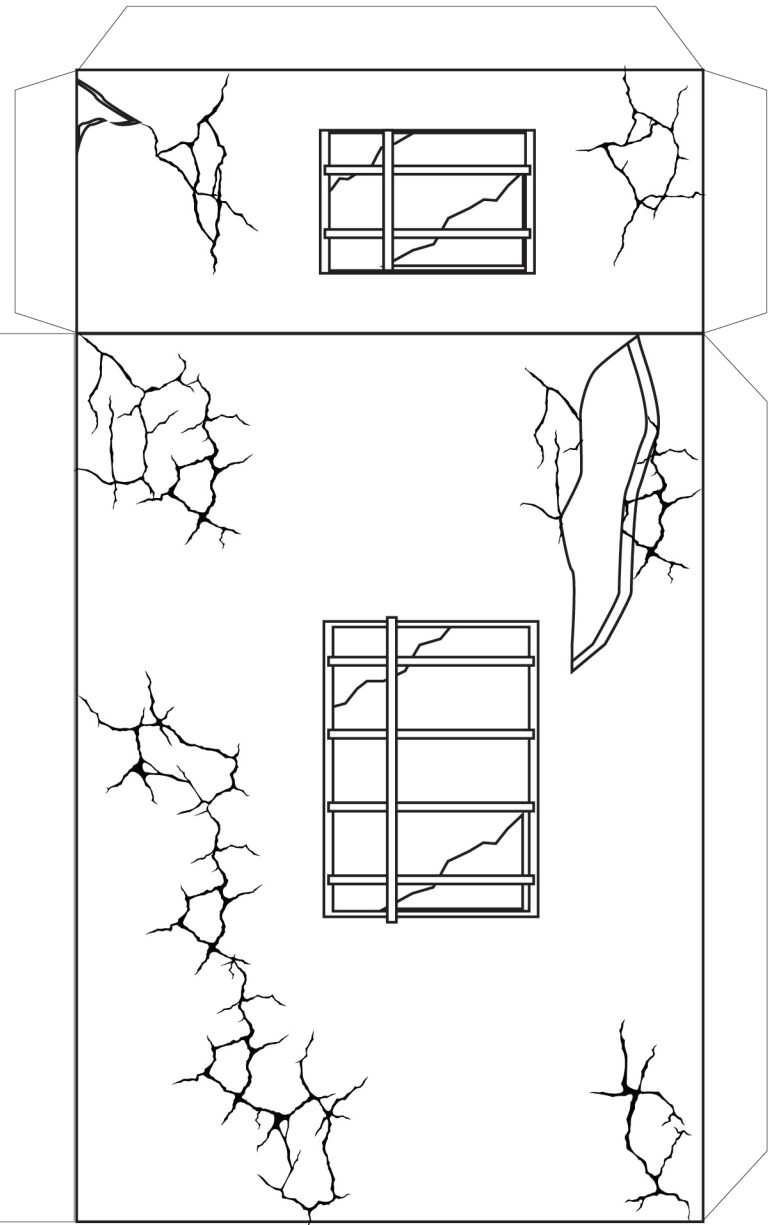

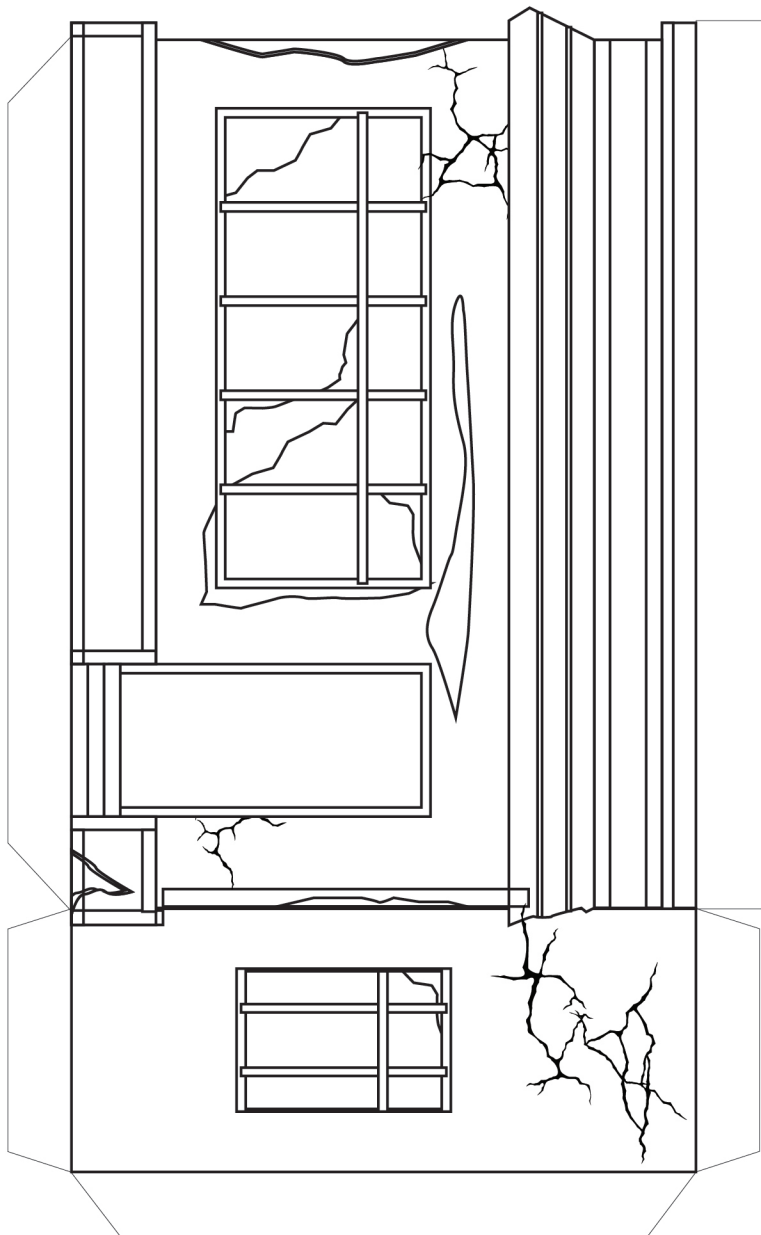

1. Print out your PDF on cardstock or printer paper and color all the pieces except for the photo image of the buildings.
2. Cut out all pieces.
3. Fold along the lines and tabs to form each 3D structure.
4. Secure the tabs with glue. Glue your Cafe sign to the top of the Cafe.
5. Design your base/diorama. You can set your 3D pieces inside of a box, or you can use a piece of poster board to form and design your own background. You can cover your base with paper, if needed, and color it to match your buildings, sidewalks, and road bases.
