FOR A CLASS SETTING:

We recommend preparing the following supplies ahead of time.

- Cut gold string.
- Cut out printable templates.
- Measure and bag the clay for each clay piece you will be making.

POF:

1. Roll out orange clay, yellow clay, and white clay into logs. Roll yellow and orange clay into 4" logs. Roll white clay into about a 2" log.
2. Place white clay in the middle, then circle yellow clay around the white, and orange clay around the yellow. Trim as needed.
3. Squeeze around the edges to connect the clay together. Using small rolling pin, roll over POF. Place clay on top of template and shape clay to match template.
4. Using wooden stick, poke a hole in the top and bottom of POF.

Cloud:

1. Roll out white clay into a long log and shape into a circle.
2. Place Cloud template on top of clay and shape clay to match template.
3. Trim around template as needed to make Cloud shape.
4. Using wooden stick, poke a hole in the top and bottom of Cloud.

Pyramid:

1. Roll all your colors out into 4" logs.
2. Cut 2 colors in half and 1 color into 3 pieces. Stack all the pieces together to create 7 logs.
3. Use rolling pin and roll out Pyramid to connect pieces together.
4. Put Pyramid template on top of clay and cut out.
5. Using wooden stick, poke a hole in the top and bottom of Pyramid.

R:

1. Roll clay into a ball and roll out into a circle. Place over template to make sure you have the size right.
2. Using wooden R, press into clay to make an R imprint.
3. Using wooden stick, poke a hole in the top of R.

Finishing up:

1. Line up your clay pieces in a straight line.
2. Using your wooden kebab stick, poke a hole in the top and bottom of POF, Cloud, and Pyramid. Poke a hole in the top of R.

Note: Poke your holes as close to the edge of your clay pieces as you can without breaking clay.

Baking:

1. Place clay pieces on parchment paper-lined baking sheet. Bake pieces at 275F for 10 minutes. Do not overbake to avoid burning clay. DO NOT MICROWAVE. Allow to cool.
2. Connect pieces together with gold rings.
3. Thread gold string through the ring at the top of the POF and tie a knot.
