### STEP 1

Print the Cloud and the Pillar of Fire stencils. Trim as needed. Before you start the project, you can paint your wood plaque or leave it raw wood. If you choose to paint, let the paint dry before continuing to the next steps.

### STEP 2

Lay stencil on plaque, and tape the sides.  
Tip: Turn the Cloud to the right before taping.

CLOUD TURNED  
TO THE RIGHT?

### STEP 3

Carefully hammer the nails into stencil on the pre-marked dots on the stencil. Starting with the inner nails first, work your way to the outer. Only hammer about  $\frac{1}{2}$  inch to save room to wrap your yarn around the nail.

### STEP 4

Remove the paper.

### STEP 5

Start with the white yarn and tie it to one of the nails. Trim excess yarn if needed. Weave the white yarn between the nails and go all the way around the Cloud. You can do multiple layers and weave through the nails in a zigzag pattern. Do not weave through the center of the Cloud. Tie off the end and trim excess yarn once completed.

### STEP 6

Last, use a lighter blue and weave a few layers around the outer nails. Tie off the end and trim excess yarn once completed.

### SUPPLIES NEEDED:

1. Pillar of Fire stencil- PDF
2. Scissors
3. Pencil
4. Masking tape
5. Wooden plaque  
large version: 8"x12",  $\frac{1}{2}$ " thick  
small version: 5"x7",  $\frac{1}{2}$ " thick
6. Nails:  
large version: 39- 1" gold wire nails  
small version: 39- 1" gold wire nails
7. Hammer
8. Yarn: white, golden yellow, light yellow

### PILLAR OF FIRE

Follow steps 1-4 from the Cloud.  
Make sure the Pillar of Fire is facing  
the right direction.

### STEP 5

Next use a lighter yellow yarn and tie it off on  
one of the nails. Trim away any excess yarn.  
Weave the lighter yellow between the nails. Do not  
weave in the center. Keep the center white. Tie  
off the end and trim excess yarn once completed.

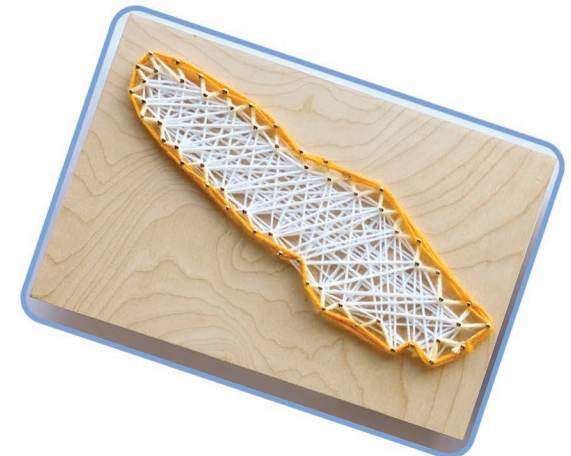

### STEP 6

Use a golden yellow yarn to wrap around the  
outer nails. Go around the nails two times. Tie off  
the end and trim excess yarn once completed.
