

street sign

street sign

base

sign post

INSTRUCTIONS

1. Cut out each piece and fold along the dotted lines.
2. Tape the front and back of each street sign together using a small piece of double-sided tape.
3. Glue the sign post together along the long tab to make a square post.
4. Cut out the small square in the base of the sign with an X-ACTO knife or scissors.
5. Insert the tabs on the bottom of the sign post through the square hole in the base. Fold the tabs out and glue them to the bottom of the base.
6. Fold the top tab and glue to the inside of the post to close off the top.
7. Line up the small rectangles on the signs and post and glue the signs to the post.

YOU'RE FINISHED!
